

Voici les étapes pour ajouter le site dans la zone sécurisé :

1. Click on Tools and select Internet Option :

2. Then, click on Security Tab. Select Trusted sites. And select the security level to a maximum MEDIUM level , you can select LOW level if you want. Click on Sites :

3. Uncheck the case at the bottom. This will allow you to add this website : <http://www.villedumonde.com> , and voilà, you take advantage of everything on this website without any restriction :
