

# Userguide –Photo Gallery

## ➤ Register an account :

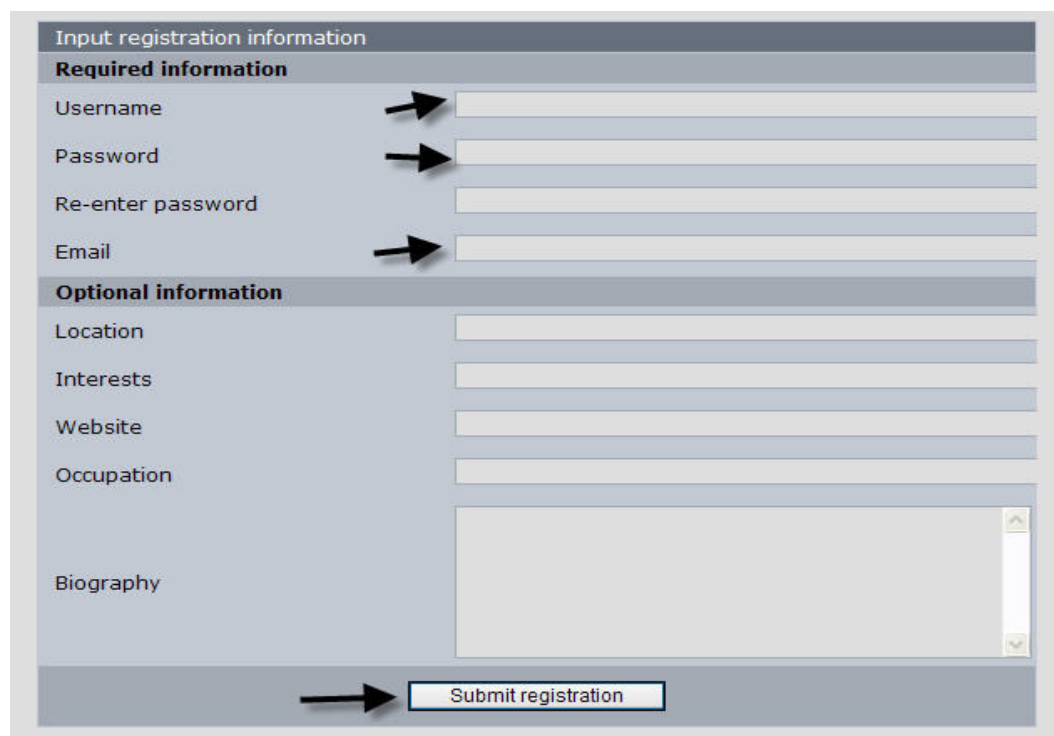

- Click on « Register » :

- Accept the terms :

- Enter the information to create your account :

A screenshot of a registration form titled "Input registration information". The form is divided into two sections: "Required information" and "Optional information".  
**Required information:**

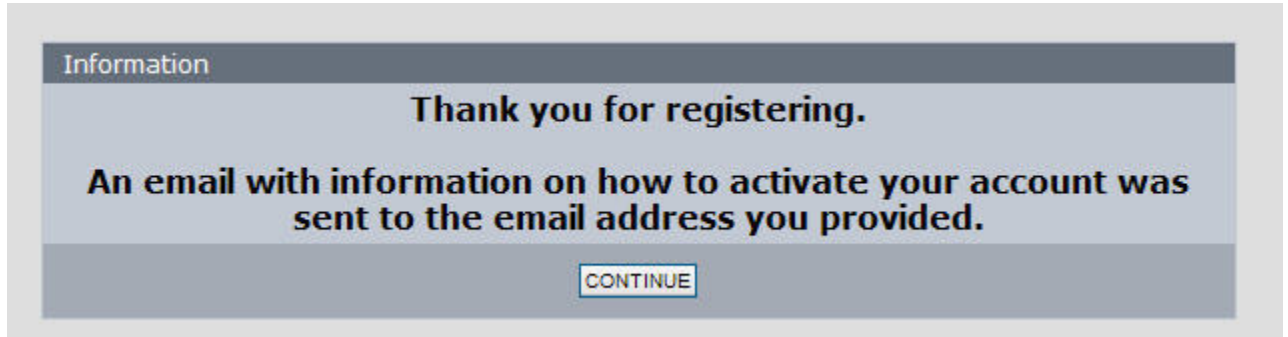

- Username: input field with an arrow pointing to it.
- Password: input field with an arrow pointing to it.
- Re-enter password: input field.
- Email: input field with an arrow pointing to it.

**Optional information:**

- Location: input field.
- Interests: input field.
- Website: input field.
- Occupation: input field.
- Biography: a large text area with a scroll bar.

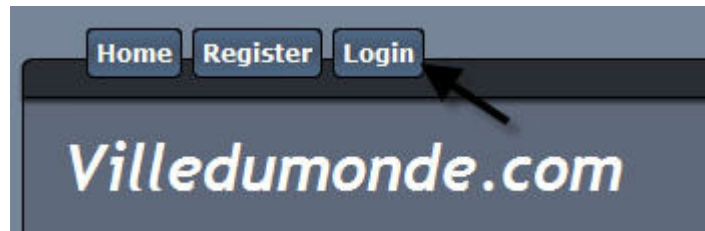

At the bottom of the form, there is a "Submit registration" button with an arrow pointing to it.

- Once your registration finished, you have to activate your account from the email received :

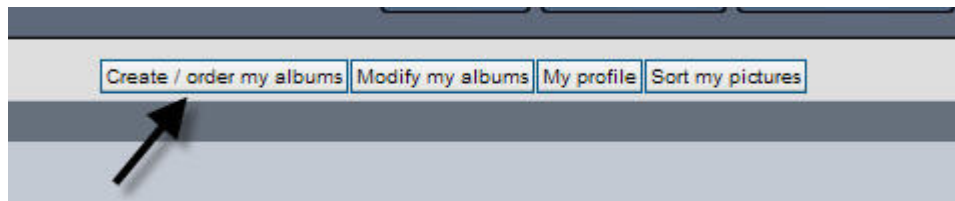

## ➤ Create an album and add photos :

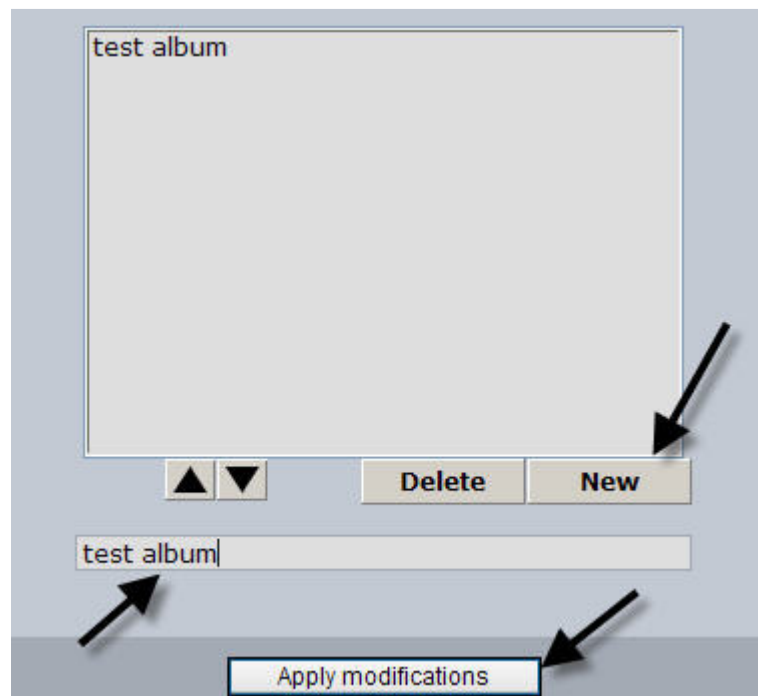

- Login in your account :

- You can only add pictures in your personal album. Click on "Create / order my albums":

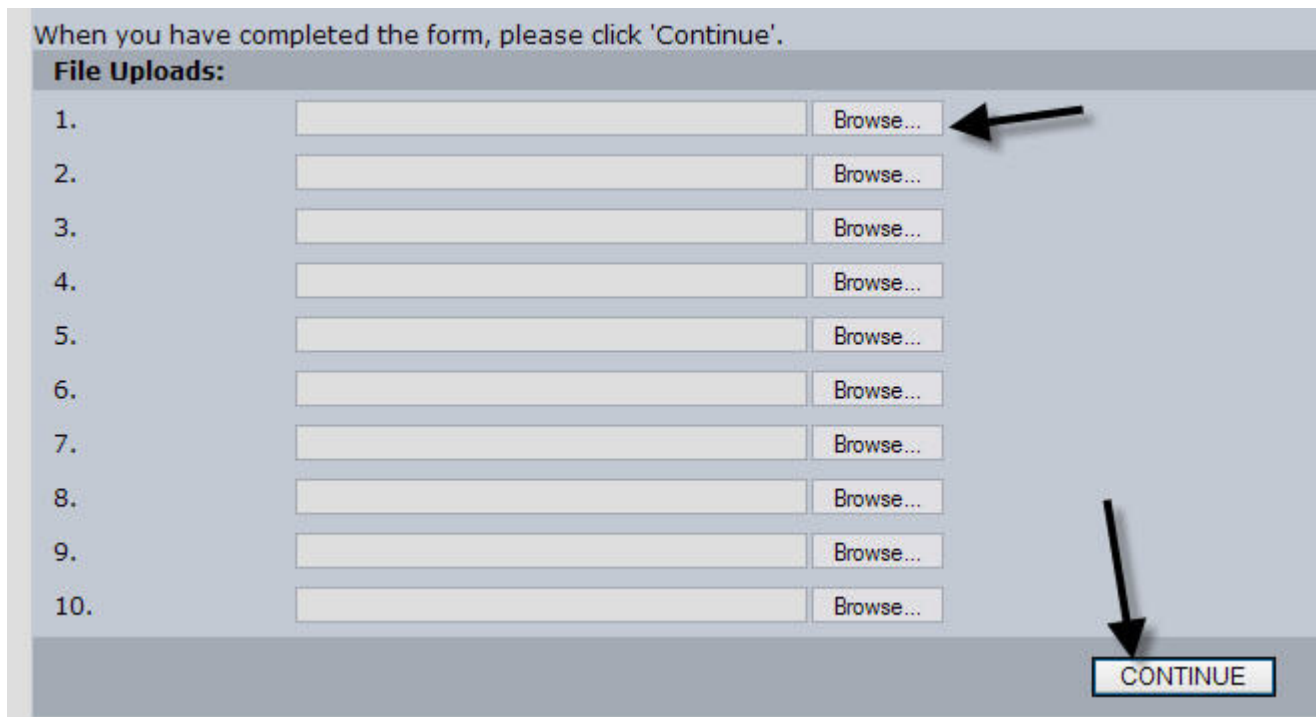

- Click on « New » and change the album's name. Then, apply the modifications :

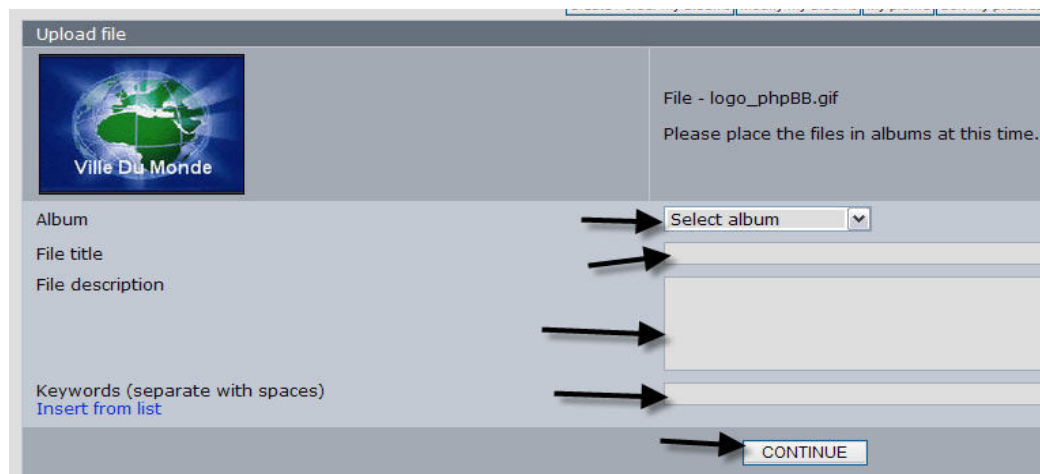

- Click on « Upload file » to add pictures in your album :

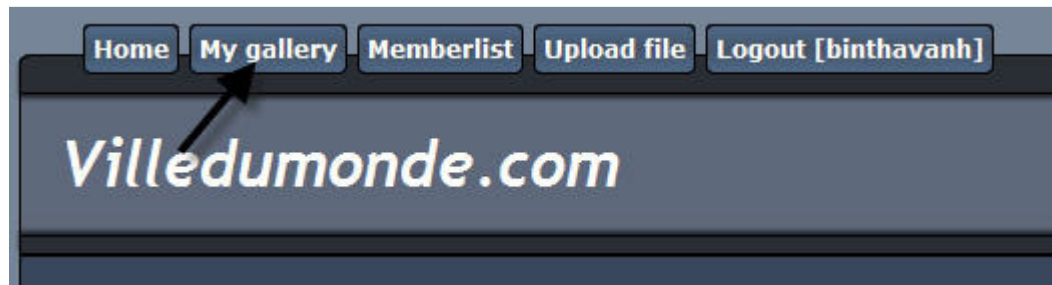

- Browse your pictures and click on « continue » when you've finished :

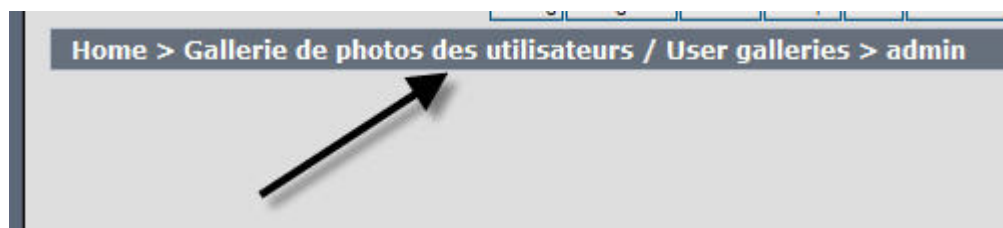

- Select the album where you want to put your pictures. Write a title and a description. It's possible to write keywords for the search option. Then, click on “continue” :

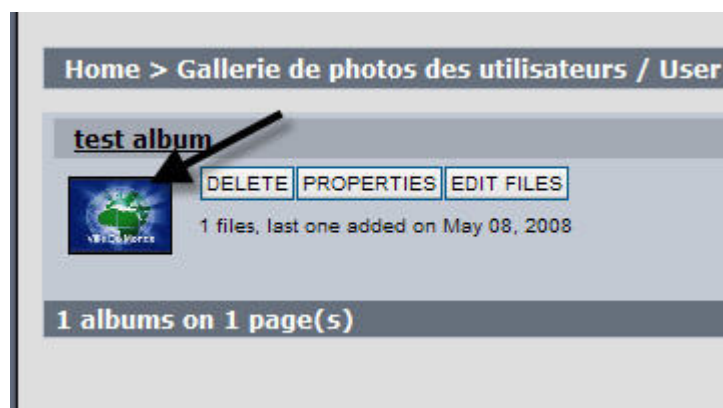

- You must wait the approval from the administrator before seeing your pictures on the website. When you want to see your pictures or pictures from others users, click on « My gallery » :

- Then, clic on « Galerie de photos des utilisateurs / User galleries » :

- You can do what you want with your own album. With the user's album you have only the option to consult them. Click on the album you want to see :

- And voilà, you read all the userguide.
